VOLUNTARY ANNOUNCEMENT
APPROVAL FOR PACLITAXEL-ELUTING CORONARY BALLOON
DILATATION CATHETER ACOART CAMELLIA® BY PRC NATIONAL
MEDICAL PRODUCTS ADMINISTRATION

This announcement is made by Acotec Scientific Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to provide the shareholders of the Company and potential investors with updated information in relation to the latest business and new product development progress of the Group.

The board of directors (the “**Board**”) of the Company is pleased to announce that on November 29, 2024, the Group received the registration approval from the PRC National Medical Products Administration for Paclitaxel-Eluting Coronary Balloon Dilatation Catheter AcoArt Camellia®. AcoArt Camellia® is indicated for the treatment of de novo coronary artery lesions with a vessel diameter ranging from 2.0mm to 2.75mm. Clinical trial results have demonstrated the efficacy and safety of AcoArt Camellia® in clinical applications: the primary endpoint of the clinical trial was the percentage of diameter stenosis (DS, %) in the segment as shown by angiography at 9 months post-procedure. The treatment group using AcoArt Camellia® recorded a percentage of 31.09%, which was significantly lower than the control group’s percentage of 40.32%. This result did not only meet the non-inferiority hypothesis but also established the superiority in statistical inference. Furthermore, based on the analysis of clinical safety data, the treatment group did not exhibit any abnormal risks or events compared to the control group. The Company will carry out marketing activities in PRC market when appropriate.

THE COMPANY MAY NOT BE ABLE TO ULTIMATELY MARKET PACLITAXEL-ELUTING CORONARY BALLOON DILATATION CATHETER ACOART CAMELLIA®. SHAREHOLDERS OF THE COMPANY AND POTENTIAL INVESTORS ARE ADVISED TO EXERCISE DUE CARE WHEN DEALING IN THE SHARES OF THE COMPANY.

By Order of the Board
Acotec Scientific Holdings Limited
